Daryl: At the end of the ARARs discussion in Section 4.2.3., there's a statement that "Additional ARARs and other criteria are identified in Appendix D."

However, the version of Appendix D attached to the latest EE/CA draft is blank, and I couldn't find another version appended to any other recent emails from you. Do you (or anyone) have a developed version of App. D? If so, please send to me asap. If not, please let me know and I'll gin something up.

Thanks.
